

NEWS OF THE DAY.

Charles Johnson, brother of "Jack" Johnson, negro pugilist, willingly entered the Federal grand jury room in Chicago yesterday and told all he knew regarding the relations of his brother and the white girl, Lucile Cameron, of Minneapolis, who recently was taken from the negro champion by her mother. Charles Johnson was recently arrested at the instigation of the champion on a charge of theft. Young Johnson's story is said to be almost of equal importance with that told by the Cameron girl. As he entered the jury room young Johnson was heard to declare: It is the hand of God. The Lord has taken this fellow in hand and is directing justice at him."

After a 12-hour battle against terrific odds federal surmen from the Forked River and Barnegat Life-saving Stations, late yesterday afternoon, rescued 16 men, the entire crew of the Italian bark Catrinia, which was driven in among the shoals, two miles off Barnegat, during the storm which raged from the southeast along the Jersey coast yesterday. The Catrinia seems to be doomed. The hard lashing of the waves during the 15 hours she had been held among the shoals had opened her seams and the crew fear she will go to pieces during the night. The vessel was bound from Montevideo, Italy, to New York.

Five persons were killed and three seriously, perhaps fatally, injured when the plant of the Energete Explosive Company at Haileybury, Ont., was blown up yesterday. The three factory buildings were totally wrecked and houses throughout the village damaged. The force of the explosion was tremendous. Almost immediately the entire plant was enveloped in a cloud of smoke. Flames shot 200 feet into the air, and flying roofing and splintered timbers were thrown through nearby buildings. The mixture that caused the explosion was a composition known as "cheddite," which is used extensively in mining operations.

The revolt of General Felix Diaz, nephew of the exiled president of Mexico, has been short-lived. The town of Vera Cruz, which he occupied

with about 2,000 adherents for several days, was captured by the federal forces yesterday. The casualties were few. Two federal columns, commanded by Col. Jimenez Castro and General Joaquin Beltran, entered Vera Cruz from the north and south. There was slight opposition to their advance. Colonel Castro, with less than 50 men, captured General Felix Diaz, whose 300 men at police headquarters refused to fire at his command. The revolutionists in the barracks have not yet surrendered. They say they will hold out until the last man is killed.

Attacked by two rough-looking Italians bent on looting an iron safe of several thousand dollars' worth of uncut diamonds and other precious stones, and several hundred dollars in cash and checks, Miss Jessie Robertson, the 17-year-old stenographer at Howell's map store Washington, put up a plucky fight in the company's office yesterday afternoon. But she was no match for her assailants, who handled her roughly, and left her lying unconscious on the floor, where the later was found by George Robertson, manager of the concern. The robbers found the safe containing the valuables securely locked, and after ransacking all the drawers in two desks, escaped, locking the unconscious girl in the office.

At 7 o'clock last night the waiters and cooks in three of Washington's big hotels and in several restaurants dropped their napkins and pans and walked out. Washington's public dining service was immediately thrown into confusion, for the managers had not prepared for the strike. The waiters said that they want their pay raised from \$30 to \$40 a month, with two full days off, and that they must have assurances of better quality of food for themselves. The hotel managers have refused to recognize the union. They are making arrangements to bring in waiters from other cities.

Mrs. Emma McLeod, 24 years old, wife of Hazen McLeod, a building contractor of Washington, was found dead from asphyxiation at her home yesterday morning. A note left by her reads as follows: "My baby's death has been taken all the joy out of my life, and has so preyed on my mind that I can live no longer." About noon J. W. McKendall, 45 years old, was found dead in bed at

the Chicago Hotel, in the same city. He, too, committed suicide, swallowing cyanide of potassium. Kendall was a widower, and worked at the navy yard for years. He registered at the hotel as of Richmond, Va.

Mrs. Hubert Lewis, whose husband is on trial at San Diego, Cal., for the alleged murder of C. H. Toliver and his wife declared on the witness stand yesterday that the killing of the Tolivers, who were wealthy and had given employment to Lewis, was the sequel to a criminal attack upon her in which Toliver had been aided by his wife. The assault occurred at the Toliver home while Lewis was away on business. Mrs. Lewis testified that when she related the circumstances to her husband on his return his rage deprived him temporarily of reason and he sought out the Tolivers and shot both to death.

Aviator Mitchell fell 200 feet at Montgomery, Ala., yesterday afternoon and was killed. Mitchell lost control of his machine while trying a spiral glide.

And decide for yourself. Here is one case of it: J. T. Langley, 513 Queen street, Alexandria, Va., says: "During the past four years since Doan's Kidney Pills cured me of kidney complaint, there has been no return of the trouble. I repeat the praise I have previously given this remedy. I had a bad back, and I think my whole trouble was caused by a strain. I could not stoop, and when I got up in the morning I could hardly move. I noticed sediment in the kidney secretions, and the many good reports I heard of Doan's Kidney Pills, led me to get a box at Leadbeater & Co.'s drug store. They fixed me up in fine shape."

IN THE YELLOWSTONE.

Mrs. Kate Waller Barrett Describes Trip Through Wonderful Region.

The Camp, Yellowstone Park, September 22, '12. I have been around and about the Yellowstone for the past ten years, yet when I came to make the tour this year, in spite of the numerous guide books, I found my information most meagre. Hoping that many readers of the Gazette will make the trip some time, I shall give a little useful information to them.

The Yellowstone reservation or park, is at the corners of the three states, Wyoming, Utah and Montana. You may enter from Cody, Wyo., by stage, from Yellowstone, Utah, or from Gardner, Mont., where the railroad crosses, you are practically at the park gates, but the official entrance, if we can so term it, is at Gardiner, Mont. where the United States government has erected a magnificent entrance arch, the corner stone of which was laid by Colonel Roosevelt when president. The archway is constructed of volcanic stone at a cost of \$10,000, and is truly majestic in its outlines, but how it pales into insignificance when you return through it, after having seen the park—so puny are the most herculean works of man as compared to the sublime touches on the hand of nature.

Gardner is a most interesting western town of about twenty buildings, nine of which are bar rooms, stretched along one side of a muddy wagon track; but the depot of the Northern Pacific Railway, which runs a branch from Livingston, is one of the most artistic log buildings in the world. It would make a fine plan for a palatial bungalow, with its fire place 10 feet wide, its lofty open roof supported by mammoth logs, which look like they were hewn from the and of giants. From here the coaching parties start on the tour of the park, three spans of fine horses hitched to an adaptation of an English coach, commodious and comfortable, that will carry you through the park, topping over night at the big hotels, as comfortable and as fashionable as any at Newport, for \$75.00, the trip taking five days.

In addition to this outfit de luxe there are several less expensive ways the trip can be made with equal comfort, and to my mind, more real enjoyment. We made the trip with Shaw & Powell's camping outfit. The traps were excellent, the meals most attractive, and the tents in which we slept, very comfortable. It represented all the pleasures of going on your own camping trip without the worry of planning for yourself. When we reached the first night's camp, and came in from the biting September air, for already winter was in the air, for the Park season closes on the 25th of September, I thought I had never seen a more inviting sight than the huge white tent with its well scrubbed board floor, bright with a glowing fire in the open stove, all festooned with wreaths of running pine and autumn leaves that radiated from the center of the tent—a long, rustic table covered with the latest reading matter. In an adjoining long house was spread a delicious feast, everything having the odor of the fresh, untainted air. When we sought our beds it was to lay awake a long while to enjoy the fragrant quiet of a night in the Yellowstone. Morning came all too soon, but it brought other pleasures that repaid us for having dreams thus interrupted.

I will not undertake to describe the wonders of the Yellowstone. They must be seen to be appreciated. To stand beside the mammoth hot springs and realize that the tier after tier of terraces that seemed to extend miles was made by the deposits of minerals in the water which sparkled clear and limpid at your feet, seemed impossible. Such colors as the different pools of water reflect was too wonderful, like nothing else on earth, no where were such colors ever imprinted. The pools might have been huge emeralds or aqua marines, or topazes and sapphires, so perfect were their translucent depths under the shimmering white haze that hung like a veil of silver tissue over them. As you pass through Golden Gate and gaze down in the seemingly bottomless pit which yawns beside you, you seem to see the remains of a thousand "dreadnaughts" which some Titan in his rage had thrown headlong into it bow and deck and strewn on bow or deck they lie.

The terrible cataclysm that wrenched these mountains of stone from their moorings and cast them over on the tops of the other must indeed have been worthy of the eyes of angels. When we stand daghest at such tiny movements of Mother Earth as caused the San Francisco earthquake, we forget the capers that were played when the Earth was young or in the making.

Will You Spend ONE DOLLAR to Elect Wilson President?

How deep is your conviction that this government ought to be in new hands, in clean hands?

How much are you in favor of a clean slate from Wilson and Marshall clear down the line to the very smallest offices in your locality?

The Democratic National Committee has every reason to believe that every progressive voter is willing to spend a dollar to elect Wilson and Marshall and their ticket.

And that thousands are anxious to contribute to the Wilson Campaign Fund in amounts of \$2, \$5, \$10 and \$20.

To such we must look for victory.

Time An Important Factor

This is another case where time is money. The enemy have their funds—supplied instantly by the interests.

We have only a few days and contributions to be effective must be received at once.

There is no question of the money of the People being able to defeat the money of the Trusts.

Because it is greater even in volume and will be used in straightforward telling ways.

But to be effective it must be received and used within the next few days.

Quick action is absolutely necessary. Let us have your contribution or the list you make up from your friends and co-workers today if possible, tomorrow sure.

How Your Money Will Be Spent

Woodrow Wilson, our standard bearer, has never had the time or disposition to talk about himself. He has never used spectacular methods to place himself in the spotlight.

His greatest works have been done without ostentation, in the most expeditious, dignified manner.

The great mass of voters do not know what a really great man Wilson is. They do not know all he has done. They do not understand all the features of his platform. We must tell them.

To educate this great nation of voters, especially the clear thinking Independent Democrats, Republicans and Progressives who choose their leader on his merits, means the expenditure of a vast amount of money.

We propose to use your dollars in just this way—judiciously, and without a penny frittered away for an unnecessary item.

We know you have confidence we will do this thing—and successfully.

Why the Dollar Counts

In this campaign the issues lie between the forces of Representative Government and Popular Government.

In Representative Government only a part of the people have influence—those with no political faith, who spend fortunes in any direction where their own ends are furthered for money.

In Popular Government all the people have influence, because their executives and legislators do not dare to thwart the expressed will of the people.

Representative Government, as ever, this year is being supported by the money of the interests. It is being spent lavishly to give the voters a wrong impression of Wilson.

Popular Government, this year, to win, must depend on the truth being told about Wilson. We must publish his record and platform broadcast so that no one can convert it.

Your \$1, your \$2, your \$5, your \$10 or \$20 will count and count to win if spent in this work.

Head a List For the Fund

If you know several Wilson voters, or work in a place where there are Wilson voters, take up a subscription from all of them.

Place your name and the amount of your subscription at the top of the list and get the others to join you.

Mention the name of this paper on your list.

Then mail the list and contributions to C. R. Crane, Vice Chairman Finance Committee, Democratic National Committee, 900 Michigan Avenue, Chicago, Ill.

This is the most helpful work you, as an individual, can do for clean government next to casting your ballot for Wilson and Marshall on November 5th.

How to Contribute to the Wilson Campaign Fund

Sign the Coupon in this corner and fill in the amount you give. Then attach your Money to this Coupon and mail today to the address given on the Coupon.
